

When you give...

Children like Emma can receive the best start in life.

Milauris wanted high-quality childcare for her daughter but was unable to find an affordable option. She feared that Emma would have to stay home, leading to Milauris losing her job and Emma's development to decline.

Thanks to your donation, Emma's family could afford care through our Seedlings Scholarship, which provides financial assistance to families with children six weeks through two years old.

Last year, the need for this initiative was so great that we had to turn families away. We want to expand this scholarship program so that no ALICE (Asset Limited, Income Constrained, Employed) family has to forgo a job opportunity due to lack of high-quality childcare.

These families need our help – and you can make an impact.

Donate today to become a spark for a brighter future in hardworking households!
